

Bed Control™ app Data Sheet

The Bed Control™ app is developed for adjustment of leisure beds equipped with LINAK® motors and the LINAK Bluetooth® adapter, the TWINDRIVE® TD4/TD5 system, or the Linear Actuator LA18. The app graphically adjusts to the connected system, for example, when connected to the TD4/TD5 Advanced, it will show four memory positions on the screen.

It features the same functions as our selection of hand controls, for example, setting up favorite positions, automatic drive, massage, and alarms, and allows the users to adjust their beds via their tablets or smartphones. An onboarding flow helps the user get started and make the app fit his/her bed. The Bed Control™ app can also be customised with graphic layouts to reflect your brand.

The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG Inc. and any use of such marks and logos by LINAK A/S is under license.

FAQ

Question	Answer
Who owns the data entered into / collected by the app?	The user owns all data entered into / collected by the app.
Can I delete all data collected?	Yes, delete the app to delete all data. Go to settings on your device to delete the app. If you re-install the app, you need to pair the app and the bed again to be able to control the bed via the app.
Who can access/use the data?	The data can only be accessed via your device. LINAK has no access to data entered into or collected by the app (e.g. favorite positions or bed names).
