

# HC40 FRAME™ Standard

## Data Sheet

The Hand Control HC40 FRAME™ Standard is for adjustable comfort beds. The hand control is developed for standard systems with back and leg adjustment and the option of simultaneous drive. The hand control works wirelessly, meaning no annoying cable to the bed.

The exclusive look of the hand control's metallic frame meets the dark matte surface perfectly. Reference lines on the back and concave and convex buttons ensure an intuitive user experience.

The HC40 FRAME™ is developed for easy customisation: Customise the colour or surface and make a unique offering for a specific brand or bed series.
