EXPERIENCE™ XL

XL lifting columns are designed for extra length. With a built-in dimension of 785 mm and 1100 mm stroke length, the **XL series is ideal for TV and monitor lifts.**

The EXPERIENCE™ XL range is engineered to perform: Fast 80 mm/s speed, 800 N load, and 1200 N self-locking capacity per column. All standard.

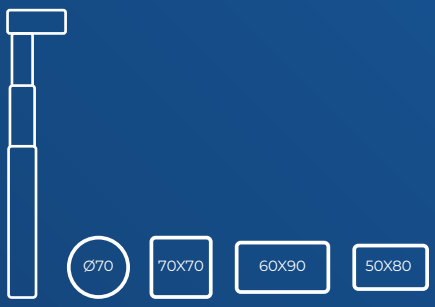

Designed to last, the EXPERIENCE™ XL is backed by a 10-year warranty. The columns are PFAS and PVC-free, and they reduce power consumption by 30% during operation compared to their predecessors. The system uses only 0.1 W in standby.

Available as 3-stage columns in round, rectangular, and square profiles. Plug & Play™ with the LINAK® product program.
