LINAK® 
WE IMPROVE YOUR LIFE

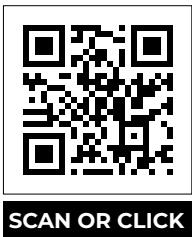

Boost your brand and furniture design

Elevate your brand or design by customising any of our elegant LINAK hand controls, control panels and apps for your comfort furniture actuator systems.

Simply choose Standard customisation of existing hand controls to match your bed or recliner design, or team up with us for Advanced customisation where you define everything from start to finish.

We would love to talk more about the possibilities for your brand!

In the meantime, you can get more information and inspiration here:

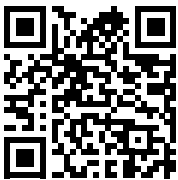

The digital bedroom

Bed Control™ app update

We hope you enjoyed talking to us about the coming update of our Bed Control™ app with new and improved features. Soon you will be able to experience the new look and user interface in app stores.

We redid the entire flow of opening the app and connecting to the bed to be much more intuitive. New features such as the alarm function was also introduced.

Please, reach out to your local LINAK sales office for more information.

Comfort zone regulation

We introduced another type of adjustability to support ergonomic sleep: the comfort zone regulation.

This actuator system for comfort beds is designed to offer individualised comfort for users. In this new solution our single actuator Baselift™ adjusts the mattress firmness smoothly in specific zones.

Did you experience how much of a difference the Baselift™ actuator contributes with in adjusting comfort zones in beds?

More information about the system

Recliner systems

We focus on making a compact and easily maintained system which manufacturers benefit from and consumers treasure.

As we continue to discover innovative and improved methods, we are excited to share some news.

This year the main conversation circle around the wireless integrated control panel BP20, our battery solution BA002 with deep sleep mode, and our rise and recline pedestal recliner. The recliner is designed to assist users by elevating and adjusting the seat and armrest providing a helping hand when standing up.

Why our recliner system?
