Introduction

The massage motor can be added to all kinds of couches and tables, chairs or beds for treatment and examination. It enables comfort, relaxation and tension release for patients and clients. The massage motors are directly connected to the actuator port at the control box – no extra wiring at the application, simple and easy mounting.

Combined with a LINAK hand control and OpenBus™ control box the massage system offers advantages like

- Different massage programs via OpenBus programmable software
- High safety level due to integrated thermo switch
- One hand control for control of movement and massage intensity and massage pattern.
