Desk Connect™ app
Data Sheet

LINAK®
WE IMPROVE YOUR LIFE

The Desk Connect™ app is developed for users of sit-stand desks with Desk Panels DPI1C, DPG with reminder (M and C variants), or Bluetooth® dongle (BLE2LIN002). It offers an easy and intuitive onboarding flow guiding the user through the setup of the main features of the desk panel (setting favourite positions and enabling automatic drive to favourite positions) for great user experience.

After setting up the desk panel via the app, the user can use either the desk panel or the app to adjust the desk. A user guide explaining how the app works is integrated in the app.

With the app installed, the user can also enable various functions, such as:

- reminders to change the desk position and achieve a healthy posture variation throughout the day
- automatic drive to favourite positions
- keylock to prevent unintended drive of the desk by requiring more than a simple tilt to move the desk up or down (DPI1C only)

The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG Inc. and any use of such marks and logos by LINAK A/S is under license.
