LINAK® 
WE IMPROVE YOUR LIFE

Next level: EXPERIENCE™

Engineered to perform. Designed to last. Built for business.

Maintaining your competitive edge in desk solutions is serious business. Every component counts, and every move matters. That is why the DESKLINE® EXPERIENCE™ range of electric lifting columns is made for the job.

On the outside, it looks the same as its forerunner, with an impeccable design and consistently high quality. On the inside, innovative technology elevates performance to the next level without compromising speed, load, or sound.

Moreover, the new series is designed to last, with the warranty doubled to 10 years as proof. Essentially, EXPERIENCE™ is built for business.

EXPERIENCE™

With the new generation of lifting columns, the Danish specialist in systems for electrically height adjustable desks is once again raising the bar. With features such as 80 mm/s speed, 800 N load, and a self-lock of 1200 N, all at a pleasant sound, EXPERIENCE™ columns set a new standard of what can be expected of a lifting column.

But this is not all. The EXPERIENCE™ system not only raises the bar when talking about performance but also ensures reduced power consumption, is free from PVC and PFAS, and is well-tested with more than 25,000 cycles run. Simply engineered to perform and built to last without any sacrifices or compromises.

Make it your own

Choose a classic, sleek standard desk panel or simply customise it and make it 100% your own. From colourful front foils to stylish graphics or a logo in the display. Ignite your imagination or get inspired by the designs we show at INTERZUM.

Lifting columns come as standard in black, grey, or white. For truly unique designs, choose a customised colour for the columns or even the complete Desk Frame 1.

Desk Frame 5

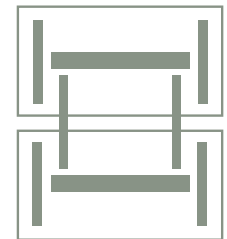

Desk Frame 5 is a new 2-legged frame designed for the professional office market, aimed at meeting the demanding needs for simplicity, stability, and flexibility in these essential office applications.

Available in black, grey, and white, and compatible with all LINAK motor housing columns, including the new EXPERIENCE™ system.

- Adjustable frame 1200 – 1800+ mm
- Sturdy and robust tube design
- Simple screw assembly
- Price-performance optimised frame
- Compatible with all motor housing columns

Also available as a bench solution:
