

Product introduction

MJB2 - Modular Junction box

The MJB2 is a compact 2-port repeater designed for use together with analogue or OpenBus™ control boxes. It is optimised for use in systems where 1 extra port is needed for easy connection of a hand control, a foot switch or an accessory like the UBL. It is easy to integrate in a wide range of healthcare applications such as hospital beds, surgery tables, and treatment chairs.

Compact design

Easy to integrate into application design

Quick and easy mounting

via cable ties or screws

Improves cable management

IPX6 Washable DURA™

Ready for wash tunnels and high-pressure washdown

Compatible with

the LINAK® OpenBus™ or analogue control boxes
